

What is claimed is:

1. A protein for inducing an angiopoietin-1 secretion, comprising an amino acid sequence depicted in SEQ ID NO 1.

5

2. A therapeutic agent for treating angiogenesis-related diseases, comprising an effective amount of the angiopoietin-1 secretion-inducing proteins comprising the protein of SEQ ID NO 1.

10

3. The therapeutic agent according to claim 2, wherein the angiogenesis-related diseases are selected from the group consisting of pulmonary hypertension, ischemic myocardium, skin flap survival, heart failure, acute hindlimb ischemia and ocular diseases.

15

4. The therapeutic agent according to claim 3, wherein the angiogenesis-related diseases are ocular diseases.

5. The therapeutic agent according to claim 3, wherein the angiogenesis-related diseases are selected from the group consisting of immature infant retinopathy, diabetic retinopathy and age-related macular degeneration.
